

TICA Registered Maine Coon Breeders

If you want to see more details of Maine Coon breeders' standard, you can visit [TICA's website](#).

But do know that TICA and Maine Coon Central do not support or recommend any of the breeders, products, or services on this list.

The table shows the breeders registered with TICA as Maine Coon breeders, which means they have done more work than others as such.

I strongly advises you to be careful and smart when you deal with breeders, just like you would be in any important business matter.
